

Criteria

Description of solution: 5 points

- 5 points: Describes major components of solution in a clear and easily understood manner.
- 4 points: Describes most components of solution in a clear and easily understood manner.
- 3 points: Describes some components of solution in a clear and easily understood manner
- 2 points: Missing description of major components of solutions.
- 1 point: Components cannot be determined because is description is difficult to understand.

Functional requirement descriptions: 5 points

- 5 points: All requirements are described completely using text and diagrams
- 4 points: All requirements are described completely using text only or most requirements are adequately described using text and diagrams
- 3 points: Most requirements are adequately described using text only or some requirements are adequately described using text and diagrams.
- 2 points: Some requirements are adequately described using text only
- 1 point: Descriptions are vague and incomplete

Non-functional requirement descriptions: 3 points

- 3 points: All requirements are adequately described, including measurement criteria
- 2 points: Only some requirements are described and include measurement criteria are excluded.

Organization, grammar and spelling: 2 points

- 2 points: Document is well organized with titles and page breaks. Few, if any, grammar and spelling errors.
- 1 points: Document is poorly organized and/or contains many grammar and spelling errors.

Score Comments

I'm not clear on whether this app includes the web
4 crawler or if that already exists.

You've missed classify some non-functional
requirements as functional. If the webcrawler is
included in this application, then there is missing
functionality. This section should also include
some user interface description with perhaps
3 some basic screen mock-ups.

2 Missing measurement criteria.

2 Overall, well organized and well written.
